We need your help!

[Farms at Work](#) [1] had been chosen for a crowdfund campaign by [Small Change Fund](#) [2]. We are launching our campaign "Checking out Farm Bugs" to try and raise money to buy a microscope to support on farm research in our region. The microscope will also be available to the farming community. Check out the campaign here <https://smallchangefund.org/project/7rgbnbuxDuijNeTey> [3]

Tax receipts are available for all donations. Please donate and share to help us reach our goal!
